Nablus, Palestine

PROFILE

An innovative technical mind with 3 years of experience working as a computer programmer , Extensive experience in the computer field. work with a variety of programmers, Ability to solve programming problems with high skill, A spirit of challenge and determination. A leader gifted with unique ideas with ability to withstand pressure and my programming abilities increase under pressure! I deliver the tasks on time. I have a saying that I always say "I don't say I don't know this thing and it's over! On the contrary, I say I will learn it, because there is no person who has sealed knowledge and lack of knowledge is not a shame as much as your unwillingness to learn." I believe that pressure is what shows the real capabilities of the programmer, especially if he enjoys programming! Programming is the future.
